Varn® Supreme RSN 809

Compatible with Conventional, UV and Hybrid Ink Systems

Fountain Solution: One-Step

Varn® Supreme RSN 809 is a one-step fountain solution designed for use on reverse slip nip dampening systems. The product removes the need for alcohol use while still delivering excellent wetting, ink laydown, and compatibility with all papers.

Use of this product will result in a wider ink/water balance window and reduce drying issues. The strong buffer package can increase the longevity of the fountain solution and maintains stable conductivity throughout the print run.

Advantages of Varn® Supreme RSN 809

- Compatible with all papers.
- Eliminates the need for alcohol.
- Offers better ink/water window and fountain solution longevity.
- Reduces picture framing, roller stripping and ink buildup.
- Developed for use on reverse slip nip (RSN) dampening systems commonly used on Komori LS sheetfed presses.

Varn® Supreme RSN 809

Compatible with Conventional, UV and Hybrid Ink Systems

Specifications:

Physical state – Liquid
Solubility in water – Complete; 100%
VOC % BY WEIGHT – 21.13
VOC lbs/gal – 1.85
pH – 3.9-4.3
Specific gravity – 1.05
Color – Green
Odor – mild

Directions:

Mix 6-9 ounces of product per gallon of water to achieve conductivity of ~460 micromhos per ounce over water.

Packaging:

330 gallon totes
55 gallon drums
5 gallon pails

Inks,
blankets,
chemicals
& more
