Varn® Absolute 6300

An Alcohol Substitute for the Sheetfed Market

Varn® Specialty Chemical: Alcohol Substitute

Varn® Absolute 6300 is effective in eliminating alcohol use on sheetfed press equipment with continuous dampening systems. Varn® Absolute 6300 provides a wider ink and water window and offers variable wetting with adjustments to dosage.

Advantages of Varn® Absolute 6300

- Recommended as a second step additive to Varn® Supreme 6038 fountain solution
- Provides variable wetting. Increasing the dosage will reduce the surface tension
- Compatible for use with UV, hybrid and conventional inks
- Minimizes press adjustments by providing a wide ink and water balance window of operation

Varn® Absolute 6300

An Alcohol Substitute for the Sheetfed Market

Specifications:

Physical state: Liquid
Solubility in water: Complete; 100%
VOC lbs/gal: 6.34
Specific gravity: 0.96
Color: Clear
Odor: Mild
VOC Chemicals % by Wt.: 79.21
Bulk Density: 8.00

Directions:

Start with a clean and well flushed dampening system. Product is an alcohol substitute designed to be used with a high-quality fountain solution. Product is typically dosed from 1 - 4 ounces per gallon of a mixed fountain solution. Recommendation: start at 1 ounce per mixed gallon and increase in 1/2 ounce per gallon increments until desired print quality is obtained. Actual use level of product will vary with press size and dampening system.

Packaging:

Totes 330 gallons (TD)
55 gallon poly drums (DB)
5 gallon pails

Inks,
blankets,
chemicals
& more
