# Varn® Revitol Deglazer

Concentrated Liquid Roller and Blanket Deglazer

Varn® Specialty Chemical: Cleaner & Rejuvenator

Varn® Revitol is a concentrated detergent and rejuvenator developed to remove glaze and restore natural tack, revitalize and rejuvenate rollers and blankets. Revitol gains its cleaning action as a detergent, not through strong solvency. It quickly penetrates into the roller surface, opening up rubber pores and removing both gum glaze and ink glaze. Revitol improves printing quality and reduces downtime by deep-cleaning rollers and increasing their ink receptivity and ink transfer ability.

## Advantages of Varn® Revitol Deglazer

- A key product in the Varn Roller and Blanket Maintenance System
- Very low VOC
- Deep-cleans to extend blanket and roller life

# Varn® Revitol Deglazer

Concentrated Liquid Roller and Blanket Deglazer

## Specifications:

Flash Point: 116°F (47°C)  
VOC (lbs/gal): 1.44  
VOC (g/l): 173  
Cleaning Strength: Strong But Mild

## Directions:

For best results, allow this product to reach room temperature before using.

## Rollers:

Remove wet ink. Apply small amount of Revitol across one of the distributor rollers and run in for 3 to 5 minutes. Keep rollers barely wet during run in. Advance washup blade and wash up in the usual manner with Wash V-120 or other Varn water miscible wash to remove imbedded pigment and glaze.

## Blankets:

Wipe blanket with Revitol. Allow to penetrate, then wash up before the press is run. To restore a velvet feel, leave Revitol on blankets overnight or over a weekend, then wash up thoroughly with a good water miscible press wash.

## Packaging:

U.S.A.  
12 x 1 Quarts  
4 x 1 Gallons

CANADA  
12 x 1 Liters  
2 x 10 Liters

Inks,  
blankets,  
chemicals  
& more
