dayGraphica[®] 4600

Engineered for longer life

Printing Blankets: Offset

To develop the dayGraphica[®] 4600 heatset blanket, Flint Group redesigned three key components of the blanket—compressible layer, carcass design, and face compound. The result is this long-lasting, smash-resistant blanket that helps to maximize uptime and minimize press downtime due to blanket changes. In summary, the dayGraphica[®] 4600 blanket delivers superior value to heatset web printers.

Advantages of dayGraphica[®] 4600

- Minimal blanket pull-down from torque
- Greater smash resistance
- Decreased severity and frequency of memory issues
- Overall longer blanket life
