Varn[®] Silicone Spray

Concentrated Lubricant in Convenient Spray

Varn[®] Specialty Chemical: Aerosol

Concentrated Silicone Spray forms a slippery, long-lasting silicone film that repels water, ink, grease, rust and glue, and forms a corrosion-resistant film. Spray on impression, blanket and plate cylinders, on press feedboards, feeder and delivery wheels, on cutting tables, saws, cabinet shelves, conveyors and pulleys. Spray into ink fountains before filling to speed wash-up. Spray on punches, dies and molds for quick release. Varn Silicone Spray has hundreds of other uses.

Advantages of Varn[®] Silicone Spray

- Adds “slip” to metal surfaces
- For use wherever paper contacts surfaces
- Provides corrosion-resistant film
- Contains no ozone-depleting chemicals

Varn® Silicone Spray

Concentrated Lubricant in Convenient Spray

Specifications:

Please refer to the safety data sheet for details.

Directions:

Hold can upright about 8" to 10" (250 mm) from surface. Press firmly on spray button and apply an even, continuous coating over surface to be treated. Do not spray on solvent sensitive surfaces, such as acrylic and styrene surfaces and latex paints. Do not spray on walking areas. They will become slippery.

Packaging:
