

# Duco® Superstrip SB

Specially designed adhesive backed coating blanket

**Stripping blanket for coating and varnishing applications**

## Product Features

- Designed to be mounted onto a plate or other stable carrier, the unique construction of Duco® Superstrip SB enables deep stencil depth, achieved by complete removal of the blanket surface down to the plate, and allows for repositioning in the event of operator error.
- Duco® Superstrip SB's surface and thick compressible layer gives optimum coating transfer, and resistance to chemical attack.
- The extensive range of Duco® coating blankets offers a peerless choice for today's printer to meet any requirement.
- Unparalleled technical resources ensure that Duco® coating blankets are designed and manufactured to meet the specific demands of all stripping applications, whether it be water-based or UV curing materials.

## Advantages of Duco® Superstrip SB

- Excellent smash recovery.
- Easy stencil peeling.
- Versatile, suitable for both aqueous and UV coating applications.
