

Varn Alcofree/Alcostop

Fount solution

Varn Alcofree is a one step alcohol replacement fountain solution, tried and tested on all types of sheet-fed press. This fully buffered product is stable in all water conditions up to medium hardness and will completely eliminate the use of alcohol.

Varn Alcostop has all the advantages of Varn Alcofree but is specifically designed for use in hard water areas.

Varn Alcofree & Alcostop incorporate sophisticated technology to produce a fountain solution with an effective preservative system that prevents bacteria growth in dampening systems without the use of formaldehyde.

Features	Advantages	Benefits	Product Benefits
Dynamic surface tension properties.	Reproduces the advantages of alcohol, without detriment to the environment. Effective ink/water balance. Reduces ink feedback to the dampening system. Eliminates piling.	Safer working environment. Gives printer the latitude he had with alcohol. Cleaner running and reduced down-time. Fewer blanket washes, therefore less waste and increased production time.	<ul style="list-style-type: none"> • Can completely eliminate the need for alcohol. • Non foaming - non piling. • Fully biodegradable. • Formulated to suit all water conditions. • Non-flammable.
Corrosion inhibited.	Developed incorporating OEM's stringent corrosion requirements.	Protects machine investment by increasing longevity.	
Flashpoint above 100°C.	Safer handling and storage properties. Classified as non-hazardous.	Complies with health and safety legislation requirements. Safer pressroom conditions.	
Compatible with the majority of inks, stocks and water conditions.	Increased flexibility in choice of consumables.	Cost savings.	

Directions for use

For optimum economy and performance use in conjunction with Varn Graphic Arts Doser DI-150. Dosage between 2 and 4% concentration to reach pH 4.5-5.5, depending on local water conditions.
