<ul style="list-style-type: none">• TAA, heavy metal free, and phthalate free	<ul style="list-style-type: none">• Abrasion and scuff resistance
<ul style="list-style-type: none">• Plasticizer free	<ul style="list-style-type: none">• Does not poison the cold seal cohesive
<ul style="list-style-type: none">• Vehicle, white, extender, old seal cohesive (Ashland) and 4 Release lacquers for wide range COF (Flexcon™) available	<ul style="list-style-type: none">• “One Stop Shop” – ink / lacquer / cohesive safe, complaint

Availability

- Commercially available
- Lead time 10 days (3 days stock item with approval)
- Available in a full range of standard and specialty colours
- Methyl violet and Rhodamine, though available colours are subject to reduced shelf life, bleed and colour drift on aging
- Fluorescent colours are special order. They may require special handling considerations, including reduced shelf life.
- Metallics are also special order and may require special handling

FlexiStar™ Confectionery

Colour Matching

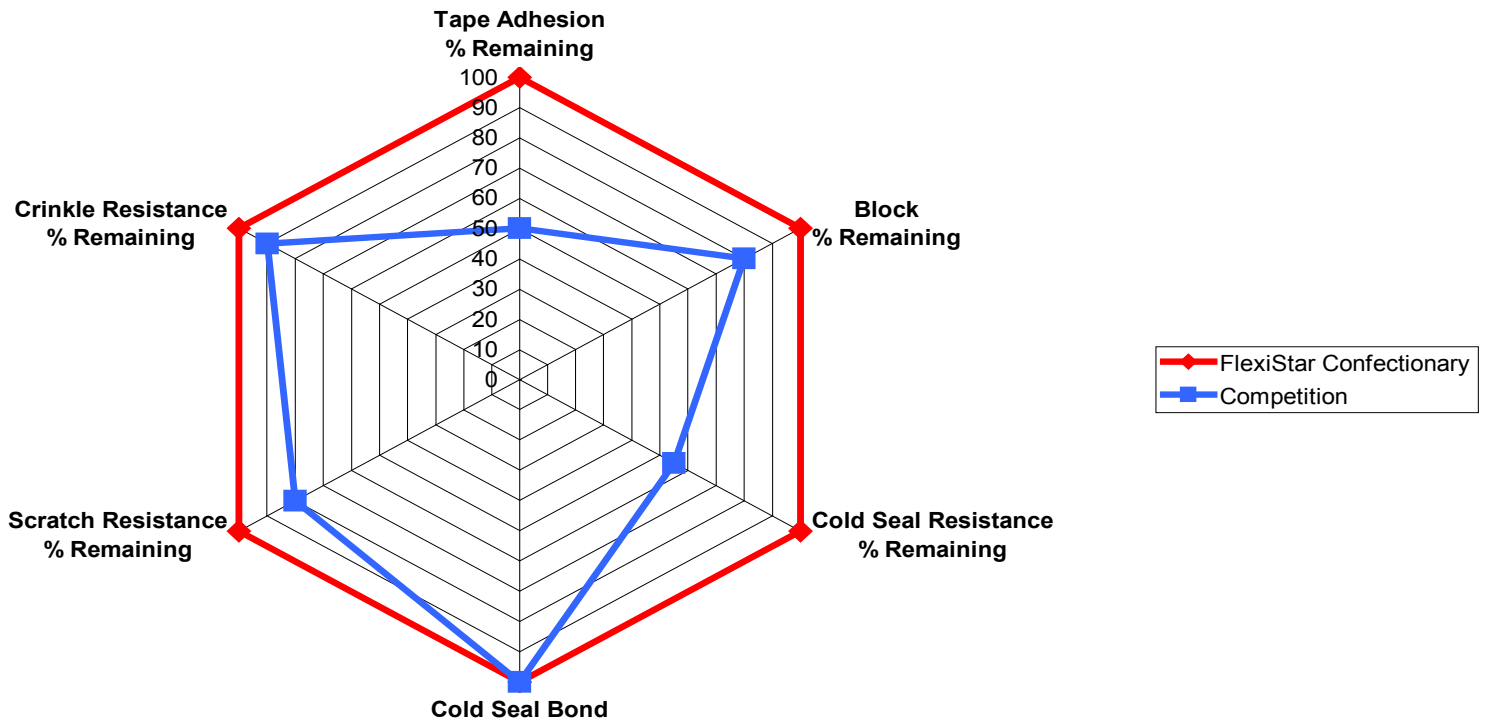

The system is compatible with many of our solvent-based dispersions; please review with the PDL and or Product Management before colour matching*. Please use the following guidelines for matching:

- 60 % max Flint Nitrocellulose Dispersions (XCel™, XP™)
- 40 % min FlexiStar™ Confectionery vehicles (line or process available)

Approved Flint Group extenders as needed

*The Aniloxes selected and Linespeed target will determine nitrocellulose dispersion. Please consult your Flint Group Technical Representatives for guidelines.

Compared to the Competition
