Varn® Take It Off Deglazer

Innovative Paste Deglazer Removes Ink and Gum Glaze

Varn® Specialty Chemical: Cleaner & Rejuvenator

Varn® Take It Off is a superior paste form roller and blanket deglazer. It penetrates deep into the rubber surface to lift out the dried ink and dissolve glaze build-up. Take It Off utilizes a unique, mild particulate to scrub away ink and glaze, yet will not damage the surface of rollers and blankets. In addition, Take It Off flushes away completely with a quality wash such as Wash V-120. Take It Off is especially recommended for use in color changes or as a key part of a regular roller maintenance program.

Advantages of Varn® Take It Off Deglazer

- Contains mild, nonabrasive particulate
- Leaves no residue
- When used with a Varn water miscible wash, forms a roller maintenance system of the highest order
