THink 2000™

NEW VERSION 3.85
A COMPUTERIZED INK MANAGEMENT SYSTEM ALLOWING FAST, CONSISTENT & EASY TO USE INK MIXING SYSTEM.

THink 2000™ solution:

Allows users to do what they require most - dispense Pantone™ colors or any formulation. The software gives the user the possibility to dispense the correct formulation first time. Surplus blending can be returned via the software and can be used in a new formulation. Formulas are automatically re-calculated if the user should happen to over-pour a color. The dispensing function is user friendly, showing clearly on screen the formula and amount of product needed. THink 2000™ guides the user through the mixing process and the ink used is automatically deducted from inventory. Formulations of house colors can be saved.

THink 2000™ advantages:

Ink remixing	Waste handling	Batch ticketing / tracking
Job costing	Inventory control	On screen help functions
Customized labels	Multiple languages	Management of order flow

THINK 2000™ OFFERS:

- Reduces lead time and speed order turnaround
- Reduces press down time
- Cuts color match costs
- Increases accuracy / consistency
- Minimizes raw material use
- Minimizes inventory and waste
- Minimizes environmental impact
